Old Worthington
PARTNERSHIP
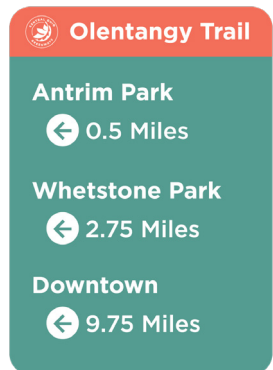

The Old Worthington Partnership is a volunteer-based 501(c)(3) non-profit organization focused on enhancing the geographic heart of Worthington. We promote the essence of the community by designing special occasions to gather; supporting the advancement of local businesses; and beautifying and enhancing our charming city. We stand as a strong and unique community advocate for **growth, sustainability, collaboration,** and **engagement.**

As part of our sustainability efforts, **we want to improve the bike and pedestrian path from the Olentangy Trail that leads to and from the historic district.** We also want to let the thousands of cyclists who use the trail each week know that our business district is just one mile from the trail.

Olentangy Trail

The current sign has no mention of Old Worthington

The Partnership approached the City of Worthington to make this project a priority, as well as invest in signage to alert cyclists to our nearby historic business district. The city's Bike & Ped Advisory Board, which provides recommendations to the City about the related bike and pedestrian priorities and projects, agreed with our recommendation.

Here are the highlights of this project:

-New signage along the Olentangy Trail and the residential path*

-Improved entry and paths along 161 access road

-Widening current sidewalk between Farrington & Evening St.

-Repave asphalt path from Seabury to Farrington

-Painted "sharrows" to indicate the bike path on the road

-Better access for resident and visiting cyclists and walkers!

We look forward to working hand in hand with the City of Worthington on this exciting project and we hope you agree that these changes will benefit our neighborhood and our city. Please feel free to reach out to us with any questions about this project. **We are always looking for innovative ideas on how to improve the neighborhood and welcome feedback at oldworthingtonpartnership@gmail.com.**
